Add buttons to the journal_manager	Done	June 23, 2024 -> June 29, 2024	Andrea Donatos	
Add Content to journal_manager	Done	June 23, 2024 -> June 29, 2024	Andrea Donatos	

We were able to add a UI for each webpages and created themes for users to customize.

Nogadas, Von Ryan – Created the ui for the journal_manager.

Cahigan, Mark louie – Created the ui for the view_journal manager.

Donatos, Andrea – Created the buttons for the journal manager.

Añonuevo, Jheferson – Created the night theme for the homepage and add journal page.

Roche, Maui Jane – Created the ui and content for the add journal page.

Retrospective Report

What went well – We we're able to improve on all the UI of our website and as well ass start on creating themes so that the user may able to customize and add personality to their journal.

What could be improved – We could improve on the functionality of the buttons, we could also improve on the alerts for the login and the wrong credentials when users a wrong account. We could also add more themes for their preferences so that they can customize their entries.

What needs to be done – We need to finalize the designs of the website and add all the finalized core features of the website. We also need to add additional features for the requirements of the subject Business Intelligence in collaboration with Web Development.
