We used [Notion](#) as a Project Management Tracker. Our Tracker Consists of the Task Names, the status of the task, remarks, starting date, ending date and the assignee of the certain task. Since there are 10 tasks and 8 of them we're finished we estimate that we are about 18% in our project.

Current State of Project:

The image displays two screenshots of a web application for 'Iraya'. The top screenshot is the Home page, featuring a navigation bar with links to Home, Login, Register, About, and a 'Get Started' button. The main content area has a 'Welcome to Iraya' message and a description of the platform. The footer is orange and contains contact information, terms and conditions, and a follow section with a newsletter subscription form. The bottom screenshot is the Login page, which has a similar navigation bar and footer. The login form includes fields for Username, Password, and Confirm Password, followed by a 'Login' button.
